### **Proposed Mission Statement**

The Port Alliance is a volunteer group of citizens who support the increase in jobs at the State Port of Gulfport and the development of our Coast communities which will result from the full restoration of the Port. We support the restoration of the Port and work to inform the community of the value and importance of the Port restoration to both the creation of good jobs and the development of our Coast communities.

I understand that membership in the Port Alliance For Jobs and Community Development is voluntary and open to all members of the public who support the restoration of the Port at Gulfport. I also understand that at this time, there shall be no dues collected for membership in the Port Alliance.
